---

Hello Brian,

Thank you for calling me back today. As discussed, I am attaching some outreach materials to include the Septic Systems, What To Do After A Flood and several more. We have several of these in Spanish and are working on the several other language translations. If you would like these in any other language please let me know. As mentioned, I will stop by the DRC opening in Brookshire just to offer these same services. Remember that the support provided by the EPA is at **no cost to the counties** and we're here for you if you find that there is more we can do to support your team and your community.

Also please see below some links you might find helpful for social media posting:
